

## Into the Wild - Week #2

### Discussion Questions:

**Conversation Starter:** What is your favorite thing to roast over a fire?

Our discussion questions are designed to create conversation for every life group. When thinking about the spiritual tenor of your group (new believers or seasoned followers) read through the different levels below and pick out questions that will best fit your group. You can read and pick questions from all 3 levels or just one.

#### First Stop:

- In what ways have you seen the enemy at work in your life?
- Are there any “fires” in your life that you thought were too big for you to handle?
- What can we do to create a life that is anchored in the things of God?
- Read Jeremiah 17:7-8 together, what does a life of hope and confidence in the Lord look like?

#### Mile Markers:

- What areas of life do you need to rely on God’s strength and not your own?
- Do you ever find yourself overcomplicating your faith? What can we do to get back to the building blocks of our faith?
- The Holy Spirit is meant to be a helper in your life, let’s discuss how to activate the Holy Spirit in our everyday lives.
- Pastor Jeremy talked about the difference between fire in a forest and fire in a hearth of a home. Discuss together where you’ve seen God take a trial or hardship, and turn it into an opportunity to trust Him, Know Him better, or experience His peace.

#### Destination:

- What is a tool you use to combat the enemy when he tries to kill, steal, and destroy in your life?
- Where have you seen the Holy Spirit help guide you through the fires of life?
- Romans 5:3-5 talks about rejoicing through the trials and how it builds character, endurance, and hope that doesn’t lead to disappointment. Have there been moments in your life where you rejoiced in the midst of a trial and what lessons have you learned?
- Just as some species of trees resprout after they have been burned, a “quick sprouting” is their response to trial. What is your response to trials? Do you find that you linger in despair or do you grow or remain steady because of your deep roots? Discuss.
